## Begich to Testify at AEC Hearings

WASHINGTON, D. C.—Congressman Nick Begich said today that he would testify in

Anchorage before the Atomic Energy Commission regarding nuclear tests on Amchitka Island. The tests are scheduled for this October.

Representative Begich said that he hoped the hearings would provide an opportunity for all sides to present their case.

"The Commission must be responsive to the will of the people," the Congressman continued. "I strongly support the-

se hearings because too often in the past decisions have resulted which have not been consistent with the will of the people or the evidence presented."

"We must carefully examine the various sides of this issue if we are going to provide direction for the future. Discussing the pros and cons of this issue in an open forum is important to our democratic form of government."
