

Why we need Elmer Rasmuson in the U.S. Senate

"We believe that Alaska stands today on the verge of unprecedented progress and economic development.

"We believe a vital ingredient of this progress to be a United States Senator with the vision to perceive Alaska's role in the family of Pacific nations, and the ability to help Alaska fulfill that role through dynamic teamwork between Federal, State and Local governments.

"We believe the challenges of the high office of United States Senator for Alaska require a man of wide accomplishment, broad knowledge of the state and its people, and deep conviction and dedication. We believe Elmer Rasmuson possesses these qualifications.

"We believe the election of Elmer Rasmuson would be a giant step forward for the State of Alaska, and we invite every Alaskan to join our ranks."
