Special Study Area

How To Make Your Voices "Loud And Clear"

This insert is meant to help your understanding of this land recommendation.

1. Maps and tentative recommendations are included.
2. Next to each map is a series of questions for reaction; space is provided for additional comment on specifics for local areas.
3. A questionnaire is located on the last page asking for opinions on the boundaries and the proposals.
4. You may mail in the last page alone or the entire section; simply fold it over so the printed envelope is on the outside, fill out the return address, and drop it in the mail. No stamp is needed.

You may also wish to make your voice heard by attending one of the public meetings which will be held in many Alaskan communities in the next few weeks. The time and location of these meetings will be locally announced.

Only through your full participation can the final product reflect the considerations of all Alaskans.
